Subject: Microsoft antitrust suit

Dear Sir or Madam;

I strenuously object to the current talk of settlement with Microsoft. They have consistently demonstrated that they are incorrigibly anti-competitive, and have consistently failed to honor the spirit, if not the letter, of previous settlements. I see nothing in the current settlement offered that shows me anything other than a continuation of the current monopoly situation.

Since I am also completely convinced that having the market completely change the operating ground rules every two years is not good for consumers, I am raising my voice to object to the DOJ-Microsoft settlement.

Regards;
Mark Buell
